

DAWID VAN DER MERWE – SUSE

Sales Engineer - South Africa

I have been exploring the IT industry for nearly two decades. Starting as a software tester, moving through operations, network engineering, IT infrastructure visibility, business analysis, product management, technical contract analysis, cyber security & ethical hacking to sales engineer for SUSE.

I constantly seek to understand and improve the business experience of users via the support of their IT teams, partners, and solutions.

About Suse:

SUSE is a global leader in innovative, reliable, secure enterprise-grade open source solutions, relied upon by more than 60% of the Fortune 500 to power their mission-critical workloads. We specialize in Business-critical Linux, Enterprise Container Management and Edge solutions, and collaborate with partners and communities to empower our customers to innovate everywhere – from the data center, to the cloud, to the edge and beyond.

SUSE puts the “open” back in open source, giving customers the agility to tackle innovation challenges today and the freedom to evolve their strategy and solutions tomorrow. The company employs more than 2,000 people globally. SUSE is listed on the Frankfurt Stock Exchange.
