

## Huawei IdeaHub

### Dear Customer

At BCX, we're proud to introduce the HUAWEI IdeaHub, the latest smart office for your clients' meeting / board rooms, open office areas, or home office. This cutting-edge screen includes an interactive whiteboard, professional video conferencing, and access to various applications, making it ideal for digital collaboration between the work and home office. Your clients can connect up to 20 devices and still maintain top-quality 4k UHD for stable presentation sharing.

Huawei's Ideahub is the next-generation in ultra-HD video collaborative telepresence endpoints that facilitates collaboration through integrated whiteboarding, content sharing, and audio and video conferencing functions. The Ideahub supports collaborative sharing of local and remote whiteboards, allows content sharing and reverse control over the content source from the Ideahub, and features a built-in intelligent camera for close-up of focus areas and speakers. These functions can be accessed through the Ideahub's touchscreen or voice commands recognized by its artificial intelligence [AI] voice assistant.

Huawei Ideahub is a powerful intelligent collaborative conferencing system. Integrated with an Artificial Intelligence [AI] engine, it enables users to focus more on meeting content and enhances user conference experience through intelligent voice assistant, automatic speaker tracking and other new capabilities. Huawei Ideahub effectively enables you to replace your projector, projector screen, conference terminals, conference control tablet, whiteboard, flipchart and microphone all in one device.

BCX is able to provide to our clients both a once of cash price for this very unique offering within the market, as well as, a per month pricing to meet our clients budgetary requirements as defined within the table breakdowns below per product category. Should you have higher quantity requirements BCX can provide a further competitive quotation dependent on your volume requirements.
